EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

Claim 1, line 3, after "portion", --of-- has been inserted;

Claim 3, line 2, after "portion", --of-- has been inserted;

Claim 5, line 2, after "portion", --of-- has been inserted;

Claim 7, line 2, after "portion", --of-- has been inserted;

Claim 9, line 2, after "portion", --of-- has been inserted;

Line 5, "the" (last occurrence) has been changed to --a--; and

Line 6, "the" (first occurrence) has been changed to --an--.

2. The following is an examiner's statement of reasons for allowance: Claims 1-10 are considered allowable over the prior art because none of the references of record alone or in combination suggest, disclose, or teach an apparatus and method for minimizing prediction drift in a fine granular scalable video coding scheme, comprising measuring motion activity; determining whether the activity is below a predetermined threshold value; coding with the fine granular scalable scheme that utilizes or not utilizes motion compensation in the enhancement layer if the activity is below or above the threshold value, respectively all together as claimed. The closest prior art, Van Der

Schaar et al (2002/0037048 A1) disclose a conventional fine granular scalable video coding scheme, either singularly or in combination, fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
